

Marconi GTX Men

silver-black

Art. nr.

3010-00440

A modern mountain shoe for technically demanding climbing. The shoe made from abrasion resistant Microfiber Racing and Dropstop textile is crampon compatible, provides great flexibility and has strong lateral support, thanks to Mammut® Motion Control. Cushioning Hybrid Shell supports exactly and only where necessary. Asymmetric lacing takes the anatomy of the foot into consideration and means more pressure and precision on your big toes. The waterproof Gore-Tex® Insulated Comfort Footwear membrane, the very grippy Vibram® Teton sole, the situationally-individually adjustable 3 Zone Lacing system and the cushioning memo foam around the tongue and ankle, complete this quality shoe.
