GORE-TEX

Developed for a wide range of applications is this lightweight shoe: ideal for hiking, or a via ferrata tour. The heel is perfectly supported and positioned, thanks to the approved Mammut® Heel Support technology. The smart velours leather is applied to the necessary points; the rest is supplemented with light, very abrasion resistant Dropstop textile. The waterproof Gore-Tex® Performance Comfort Footwear membrane, the grippy Vibram® Mulaz sole with Climbing Zone and the insulating memo foam around the tongue and ankle, complete this quality shoe.
